

Dental Team Weekend

Give your team the opportunity to support your investment in education

MARCH 9, 2018

A Lecture Course

Dental Team Implant Certification Program

EDIE GIBSON, RDH, MS,

Is your team ready for this new journey? Can they identify "why" patients may prefer this treatment? Do they appreciate your passion for this modality of treatment? Do they understand the differences of treatment options? Can they define these differences clearly for patients? Do they know the right questions to ask when uncovering a patient's motivation for tooth replacement? This course is designed to get everyone in your office speaking the same language to patients!

Upon completion of this program participants will be able to:

- Develop an appreciation for the role of dental implants in the maintenance of oral health
- Identify patients who would benefit from implant therapy & learn the consequences of no treatment
- Identify potential medical & medicinal complications related to implant dentistry
- Develop a knowledge base related to treatment planning implant cases
- Understand the causative factors of implant success & failure

COURSE OUTLINE:

Introduction & Definitions

- Rationale for dental implants
- Historical overview
- Contraindications
- Criteria for success

Assessment, Diagnosis & Treatment Planning

- Client evaluation and assessment
- Diagnostic and adjunctive procedures
- Treatment planning, site selection, and implant selection
- Risk management
- Implant complications and failures

Patient Interaction

- Case presentation & handling objections
- Commonly asked questions and appropriate responses
- Fee presentation
- Financial options and arrangements

- Describe important techniques for effective case presentation
- Understand how to discuss treatment fees and present financial options
- Review the techniques and skills involved in implant maintenance
- Develop techniques for good intra/inter office communication and documentation
- Understand the laboratory procedures involved in implant therapy

Implant Surgical Procedures

- Surgical guides & templates
- Pharmacology & sedation
- Surgical preparation and infection control
- Surgical procedures
- Ancillary procedures: sinus lifts, bone grafts, tissue regeneration

Implant Prosthodontic Procedures

- Provisional prostheses & fabrication of temporaries
- Impressions
- Types of superstructures
- Laboratory considerations

Maintenance & Evaluation Procedures

- Professional care, armamentaria, and techniques
- Client education and care
- Management of implant complications and failures
- Evaluation and post-treatment care

Marketing

- Increasing your patient base
- Common marketing techniques
- Referrals and intra/inter office communications

PRESENTER

EDIE GIBSON, RDH, MS, Edie is a Registered Dental Hygienist that brings over 30 years of diverse, hands-on clinical and business expertise to the podium. She incorporates real world experiences and humor into all her programs, making difficult subjects fun, empowering, and thought provoking for the entire TEAM! She believes in a collaborative, patient-centric approach to treatment in order to achieve stellar outcomes.

Edie is a Certified Speaker for Straumann, a Clinical Trainer for The Implant Consortium and a Thought Leader/KOL for several prestigious dental companies. She is also a 2013 Sunstar RDH Award of Distinction recipient, a Registered Psychotherapist and a contributing author to the bestselling book, *Overcoming Mediocrity*.

Edie is passionate about elevating dental professionals through her motivational presentations. Get ready to be inspired, entertained, and FIRED UP to return to work on Monday morning!

MARCH 10, 2018

A Lecture Course

Essential Skills for the Dental Implant Team

JOY MILLIS, CSP

OVERVIEW

Management and communication skills go hand-in-hand with the clinical skills necessary to provide implant dentistry. Marketing the service, answering questions, maintaining patient records, coordinating treatment, quoting fees, making financial arrangements and risk management will be discussed. Handout materials provided will assist in the rapid implementation of skills learned and systems discussed during this program.

OBJECTIVES

At the conclusion of this program, participants should be able to:

- Increase the likelihood that patients will act on treatment recommendations.
- Improve the quality of the practice/patient relationship.
- Reduce the risk to the patients and the practice by developing a system of continual care and communication.
- Quote and collect appropriate fees for quality care.
- Take insurance out of the doctor/patient relationship

PRESENTER

JOY MILLIS, CSP, is a successful entrepreneur. Her business development firm Joy of Communication, equips and motivates professionals to implement quality-based marketing and communication skills. She has earned the prestigious Certified Speaking professional (CSP) designation from the National Speakers Association. Ms. Millis also serves on the visiting faculty of The Medical College of Georgia, Howard University, The University of Miami and The University of Texas Health Science Center where she teaches management excellence for implant dentistry.
