18th Southwest Symposium on Forensic Dentistry
Post-Symposium Forensic Anthropology Workshop, June 7, 2008
June 2-6, 2008

The Center for Education and Research in Forensics (CERF) at The University of Texas Health Science Center at San Antonio, Dental School in cooperation with the Bexar County Medical Examiner’s Office.
WORKSHOP I • DENTAL IDENTIFICATION AND MULTIPLE FATALITY INCIDENT MANAGEMENT
This two-day workshop combines instruction and hands-on experience in the areas of forensic dental photography, forensic dental radiography, forensic comparisons of antemortem and postmortem evidence, and mass disaster management. Included are background and use of the dental identification software program WinID3 and the integration of digital dental radiography with this software. The workshop leaders are Bryan Chrz, DDS & Bruce Schrader, DDS.

WORKSHOP II • BITE MARK MANAGEMENT
The Bite Mark Management workshop includes lectures and hands-on experience in evidence collection (photography, DNA swabbing, pattern and 3-D information collection, etc); evidence analysis (overlays, microscopy, etc) and evidence presentation (report writing, courtroom displays, etc). Participants will learn to produce, evaluate, and defend bite mark data. Greg Golden, DDS of San Bernardino County, California and Frank Wright, DMD of Cincinnati, Ohio will lead this workshop.

WORKSHOP III • ABUSE OF CHILDREN, ADULTS, AND THE ELDERLY
This half-day workshop gives the participant crucial information for preparing to deal with the responsibilities of forensic dentists in recognizing, reporting, and intervening in cases of abuse. Background information, statistics, case reports, and technique instructions will aid attendees in developing strategies to return to their communities and make a positive impact. The goal is to reduce the level and severity of abuse and to impede the activities of abusers. John McDowell, DDS, DABFO of the University of Colorado School of Dentistry and Omalola Adetona, BDS, of the Pediatric Dentistry Department at UTHSCSA lead this workshop.

WORKSHOP IV • EXPERT WITNESS TESTIMONY
Instruction and information related to expert witness testimony will be followed by hands-on experience. Participants will study a forensic case and some will be examined and cross-examined by attorneys in a courtroom before a judge. The workshop leaders are Robert Barsley, DDS, JD & Michael D. Bernard, JD, Roger D. Metcalf, DDS, and Tony Roberts, JD.

WORKSHOP V • FORENSIC AUTOPSY
Participants will observe forensic autopsy cases. The supervising pathologist will explain and demonstrate the procedure for determining cause, mechanism, and manner of death. The workshop leaders are Randall E. Frost, MD, Chief Medical Examiner, Bexar County, Texas & Kimberly Molina, MD, Deputy Chief Medical Examiner, Bexar County, Texas.

WORKSHOP VI • AGE ESTIMATION
Following background information on different methods of estimating age, this workshop will provide participants hands-on practice using the computer program UT-AGE in estimating age by determining the level of 3rd molar development. The workshop leaders are David R. Senn, DDS, Paula Brumit, DDS, & Joanne Ethier, DDS.
